Introduction

Are you upset that every game is about killing instead of love or just having fun?

The Roundlings are a collection of 9,999 **Bored or Loved** male monsters in their own World, called "Roundlings", a NFT unique digital collectible residing on the Solana **SOL** Blockchain.

Your unique Roundling grants you **access** to the exclusive **Members Area** where you have to observe your Pet and **make them more exclusive**, as they are already are.

Instead of **growing (loved)** you might **kill (bored)** your pet, if you never care for them or don't be aware of your Roundlings needs.

The First Love2Earn Game

The Roundlings World Metaverse

RWM

RWM - Live or Die

Things u can do in the RWM - Roundlings World Metaverse

Be careful what your **pet needs** and how frequently.

For the majority of time you can check on them **weekly**, depending on if you want to keep them alive or want to **grow and level them up**.

That means you need to make sure, to feed them the right food in the appropriate amount.

Pet them love them and take care of them as good as you can to see them thrive.

All in all, they **need your Love**, the more you love your pet, the higher the Chance that they will grow in their Abilities and Level.

Leveling your Pet means it will grow in rarity, which will reward you with special features and access to bonus content that will be extended in all future development plans.

Be Member of the RWM “Roundlings World Metaverse”

RWM - The right place

Every Roundling needs to be held in their cage.
A cage can also be a separated Isle for them,
where they can live.

While in later gameplay, it is very important to have
offspring from your male and female roundlings.

Depending on community feedback and interests we are going to
extend this part longingly but start of with this basic gameplay.
We have a lot of great ideas how to expand this ourselves,
but hearing from the community is always worthwhile.

Use your  Island to keep them happy, instead of a Cage

RWM - Attract Females

If you are on a successful path to keep your Roundlings alive, you may also be interested to make them attractive to females.

The better and more frequently you take care of your Roundlings, the higher the chance of attracting a female (received through free Airdrop), that is going to join your cage.

If that happens you have to care for both, and this will ultimately lead you to being able to get progeny.

But be sure that the process will take some time, as it is based on community progress.

Breeding automatically takes place when all seats, which is for now 3,333 Roundlings, found their partners.

Extend your RWM and get your own Family take care, only 3,333 can have one.

RWM - Dead Roundlings

If you forget to check on your Roundling for a longer period, it might die from being neglected for too long.

This is an ultimate state and there is no way to get your Roundling back and also excludes your Roundling from attracting a living female and thus no breeding.

This on the other hand means that with time, the mass of alive Roundlings can decrease and therefor make them much rarer than they already are.

But don't worry if you really kill your Roundling
Staff exclusive impenentations
for dead Roundlings are being planned.

As soon as we reach a certain amount of Roundlings,
we will announce and introduce our Plans for that.

Dead Roundlings have a Place in RWM, they are not worthless

Metaverse Connect

We focus on community driven content, so it depends on you which steps we take.

Your Support to this project is our Success and helps to speed the up development.

It is possible to Team up with other Metaverses and include Roundlings in a big project, as we don't have a closed Metaverse planned.

We are excited to Team up, with other interesting Projects to grow the use of our Roundlings and their value in the Crypto Gaming World.

But first things first.

We need a solid Community and numerous things done, before the next steps. Stay tuned.

We will do our best, to be successful in CryptoSpace

Summary

What we have learned so far:

- 9,999 Male Roundlings will be for sale
- Roundlings have their own Uni(Meta)Verse, integrations are possible
- It's not about fighting, it's to Love them (Petting, Supporting and have Fun)
- Get your own Island for your cage, for your Roundlings
- Level them up and attract Female Roundlings
- Weekly free Airdrops of Females
- Only 3,333 Female Roundlings will ever be existing
- Create your own Roundling Family by Breeding
- If you don't take care, your Roundling will die
- Dead Roundlings are not worthless, new Functions are planned
- Competitive Games are in development
- All Living Roundlings will become more valuable with Time

This is just the beginning, Stay Tuned!

Development Phases

Phase 0

All 9,999 Roundlings are Generation 0 and only Male

Phase 1

First PreAlpha: Feed, Support and Pet Them, to be alive and attractive.

Phase 2

Female Airdrops for the most attractive Roundlings

Phase 3

Breeding possibilities for Male/Female Roundlings that lives in the same cage. You will receive an Egg, you will have to hatch.

Phase 4

You will receive your Baby Roundling when holding an Egg that is **Fine**, Roundlings Generation 1.

Depending on the community, Gen 1 will be 2D, Voxel Art or 3D

Future Ideas

- Train your Roundlings to acquire different Abilities. These are going to be additional to Base Abilities.
- Fashion Contests and similar competitions are going to be the first development for interactive gameplay.
- Gadgets and Fashion for your Roundlings
- Implement Features for Dead Roundlings
- Implementation and Partnerships with other Projects/Games, like Sandbox
- Different Types of Competitive Gameplay

We have many great ideas, in the end our community decides the way!

Roadmap

Start

- Homepage Release
- Roadmap Release
- Social Media Start
- Release White paper
- Responsive Web Design
- Create Roundlings

Phase 1

- Pre-Alpha Game
- Level your Pet
- Grow Dev Team

Phase 3

- Breed your Egg
- Rework Dead Pets
- Island Mechanics

Phase 0

- Community Rewards
- Whitelist Pre-Sale
- Release NFT Series

Phase 2

- Airdrop Females
- Release Island details
- Sale Gadgets

Phase 4

- Receive Baby
- Alpha Game
- Next Roadmap

We work on an Agile and Community Driven Roadmap

Who we are

We are an experienced team that wants to create something new, where everybody can participate and win, without killing each other.

We want to unite the entire Solana Blockchain with a focus on Love2Earn as the #SolanaPets

Our focus is a serious and transparent game and community. As our community is the most important thing for us.
